Please comment on the strong points of this instructor's teaching and presentation: -

- Ian knows the material very well, the real life examples he makes in class are very good
- "Diet Mountain Dew is gross"
- He explained everything very clear and concise.
- a good process of analyzing clear explanation good grading needs to ask him a lot to figure out what he will test
- amazing professor, really clear with material, and explaining the hard stuff
- He's very enthusiastic about what he teaches and is very willing to make sure students understand what he's teaching. He is willing to make changes to the course to comfort the students. Overall he is a very nice professor.
- Gives good feedbacks and have clear teaching rhythm.
- Very enthusiastic. The content of each class is very interesting.
- He is such a nice instructor and presents material clearly. He always is available for questions. He is so patient and nice. I always have so many questions because I took microecon more than 2 years ago. But Ian makes this class not that hard.

Please comment on aspects of this instructor's teaching and presentation that might be improved: -

- He should give more examples which is better for understanding materials. Sometimes concepts are a little bit abstract and I don't know how to use them.
- If I sit on the left side of the room I will not be able to see the blackboard. Hope there can be a pause while talking about the examples to let the side of the room to see the notes.
- N/A
- More numerical examples should be given in class. A lot of variables gets confusing for the course content. The slides have a lot of variables in solving questions hence it becomes confusing. Moreover, the questions on the exams should be more easier. They are too complicated
- still, the analysis process might be too detailed
- Everything is good no need to improve
- Skipping steps during problem solving makes it hard for us to follow

Please comment on the strong points of this course: -

- He is always willing to help you when you don't get the concept from class
- if ask him more details about assignments, can help a lot for exams
- with IAN it is really challenging and it is really interesting. he is always available outside of the class and always willing to help students. perfect course perfect professor
- Time saving.
- Great content.
- This course seems very useful as it uses a lot of microecon knowledge.

Please comment on aspects of this course that might be improved: -

- Wish the problems can be less challenging in the exam and more in the homework.
- N/A
- need more mathematics examples
- N/A
- Very hard course

Are there any courses you would have taken this summer that were not on the schedule? -

- No
- N/A

Do you have any other comments about your summer experience at Boston University? -

- good, even better Rhythm than semesters
- Very good
